HDI Portable LED Maintenance Light

Heavy Duty Industrial-High Lumen Output-Solid State Lighting

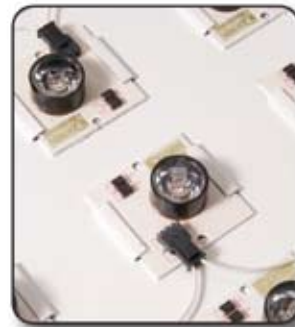

The HDI Series Service Light is designed to provide high lumen output with high shock resistance to industrial applications that require lighting when it's needed. The HDI incorporates OE Super Lumen LED Technology and guarantees the highest lumen LEDs, maximum rated life, and standardization across the board.

No other LED system incorporates, customer value, lifetime service guarantee and quality of technology based on application. HDI Fixtures are available in wide spot (WSP series) and wide flood (WFL Series) for illumination. HDI Series fixtures feature high impact polycarbonate lenses, durable cast housings and a powerful magnet for hands free work. Additional options include rechargeable Nickel Cadmium battery operation for up to 3 hours of off-line operation and quick disconnect cords.

Features

- State of the art High Lumen LED Technology
- Rugged Cast Fixture Housing
- High Impact Polycarbonate Lens
- Industrial Grade Construction
- Standardized Components
- 1 Year Warranty
- Minimum 50,000 Hour Rated LED Life
- 48 Hour Service Guarantee
